Inspired by the rolling, rural landscape of Provence, the Seven is a collection of one-of-a-kind homes hidden amongst 10 hectares of verdant parkland – crafted by world-renowned landscape architect Jean

Mus.

Each of the seven properties is designed by a different, eminent international architect. Each has its own hectare of land, envisioned by Mus to integrate into its surroundings and enjoy complete privacy, with unrivalled views across the Mediterranean and up to the hills of Andalucía. Each family home is spacious, fully serviced and enjoys an extensive array of amenities. And each sees the individual aesthetic, imagination and expertise of its architect brought to life on our patch of Provence in southern Spain – together creating an incredible, utterly unique community.

Designers of Monocle Magazine's acclaimed headquarters, Midiori House, this young architecture studio rapidly gained an international reputation for precision and craftsmanship, the go-to studio for high-impact, high-end property projects – including Stockholm archipelago's famous summer house, Aspvik House, and Karlatornet, the highest building in Gothenburg.

Recent commissions include Continental Apartments – 18 luxurious high-rise apartments in central Stockholm with a penthouse complete with 70-tonne suspended pool, the Aspvik House – a summer house in Stockholm's archipelago which has been widely published and Karlatornet – the design of the penthouses and premium residential levels of Scandinavia's highest building in Gothenburg.
