

For Sale EUR - Casa de los Leones, Kings & Queens, Sotogrande Costa

 870 m2  2803 m2  7 Bedrooms  7 Bathrooms  2 Garages

Casa de los Leones is probably the most or at least one of the most luxurious and exclusive properties in Sotogrande.

It is set in Ricardo Corazon de Leon, a quiet road in the heart of the sort after “Kings and Queens” area on the Costa side of Sotogrande. As such it is convenient for all local facilities. At the same time the orientation of the plot and the design of the garden will give total seclusion. It is the last plot to be developed the road and will sit alongside a series of other high specification villas.

The property consists of 3 levels. There are seven bedrooms, including an impressive master suite. There are several reception areas, a wine cellar and a study. The property features high specification heating, air conditioning and glass insulation.

The property would be perfect as a major family home or as a holiday residence.

Outside the property there is an infinity pool with retractable cover and solar heating to ensure both a long swimming season and economic running costs. The extensive gardens are landscaped to a high standard.
